

Leading the Change in All-Electric Access

Experience the NetZero™ Advantage

The NetZero range brings a new era of fully-electric lift, steer, and drive capabilities, offering unmatched performance and efficiency.

Zero Emissions

Ideal for a broad range of projects where emissions-free work is vital for maintaining air quality.

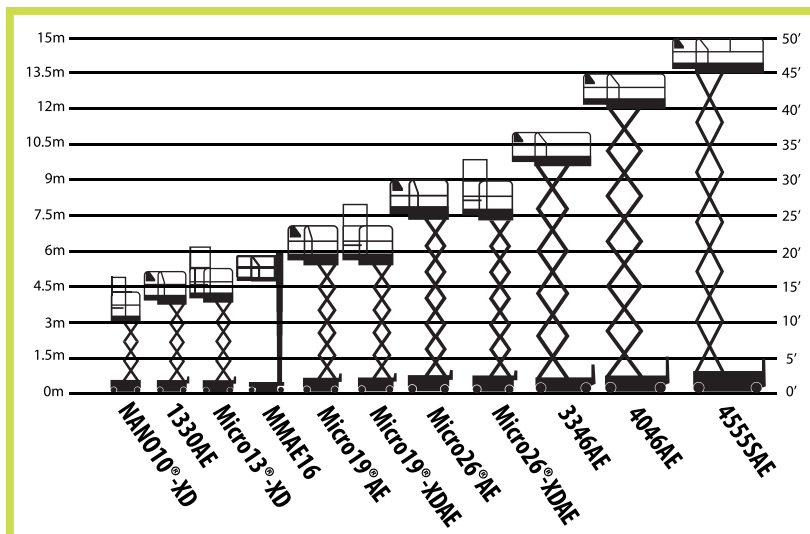

Zero Hydraulics

An all-electric actuator replaces a traditional hydraulic system for less required service and maintenance.

Zero Leaks

Eliminates hydraulic leak risks, reducing worker hazards and preventing jobsite damage.

Every Height for Your Fleet

Unmatched Productivity

Reduced Total Cost of Ownership (TCO): Engine-free and hydraulic-free, our maintenance-free battery design minimizes regular maintenance and service, optimizing battery duty cycles for enhanced energy efficiency.

Superior Sustainability

Eco-Friendly and Safe Operations: With AGM or Lithium-Ion batteries and all-electric actuators, NetZero lifts eliminate hydraulic fluid leaks and coolant, ensuring a safer, cleaner work environment.

Quietly Efficient

Zero Noise Pollution: Ideal for sound-sensitive areas, NetZero lifts operate silently, improving working conditions and minimizing disruption in places like residential areas, shopping centers, and healthcare facilities.
